Hardplate drill bit

A drill bit specifically to penetrate Hard Steels and Alloys. Especially useful for drilling Hardplate and Drill Resisting Plate encountered by Locksmiths and Safe Engineers.

Many trials were undertaken to find a better bit for drilling various types of hardplate. Shown below are two examples of particular success.

Figure 1 shows how a drill bit penetrated a High Speed Steel lathe tool and Figure 2 shows its effectiveness on a hard Chrome Steel ball bearing with a hardness of 66 Rockwell C.

- Great Value for Money
- Drills Hard Steels and Alloys
- Saves Time and Money
- Unique Tip Geometry
- Tungsten Carbide Tipped
- Super Sharp
- Easier Drilling

CAUTION : Always wear Safety Glasses and take care when Drilling.

Tubular lock cutter

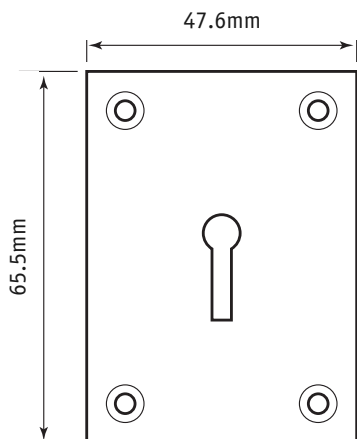

A simple yet effective cutter for drilling out radial pin tumbler locks which cannot be readily picked.

Ref. TLC1

- Capable of drilling out many locks
- Made from high grade tempered steel
- Does not destroy pins
- Enables decoding of key combination

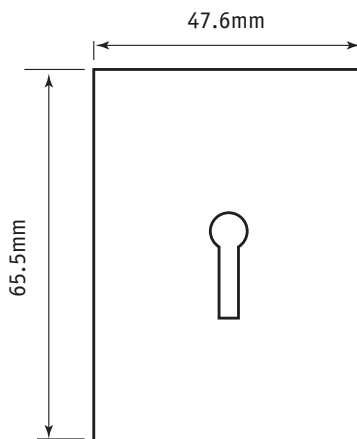

Type JE1

A large escutcheon to solve many different problems.

- Move Keyways without difficulty
- Conceal Lock upgrading
- No more screws in fresh air!
- Use the escutcheon after drill openings
- Comes complete with screws
- Suitable for shop merchandisers
- Packed singly or 10 to a box

Type JE2

A large stick-on (self adhesive) escutcheon ideal for use on safes or steel faced doors.

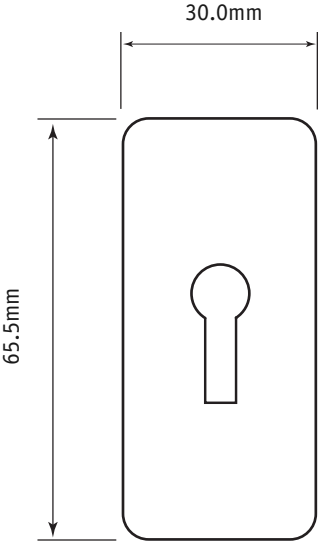

- Quick fitting
- Tidy finish
- No drilling or tapping required
- Strong Acrylic adhesive

Finish	Screw-on Ref	Self Adhesive Ref.

-----------------	-----------

'Union' anti-thrust plate

For 2332 mortice latches

- Suits both 64mm and 79mm lock cases
- Heavy duty 2 mm thick
- Satin stainless finish
- Complete with clutch head screws
- Rounded corners

Finish

Satin Stainless

Ref.

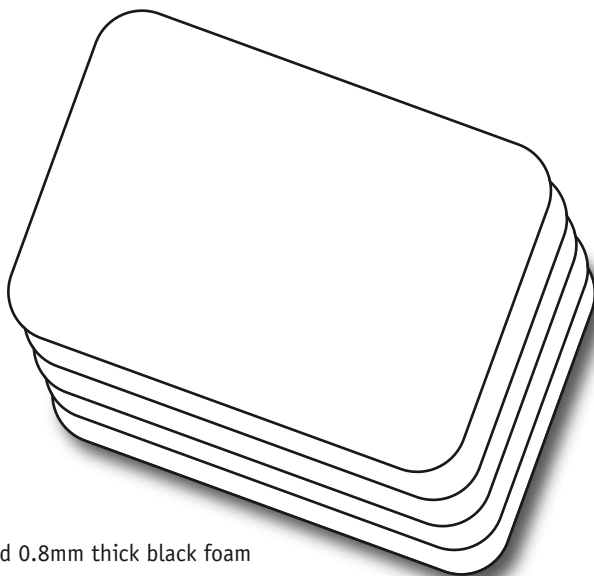

AT/2332/SS

Hi-tack adhesive pads (Ref SB1/5)

13

A pack of 5 adhesive pads for sticking objects to flat surfaces.

These pads are exactly the same pads used on our escutcheons. Great for notices, signs, push plates etc. where a quick permanent fixing is required without the use of screws.

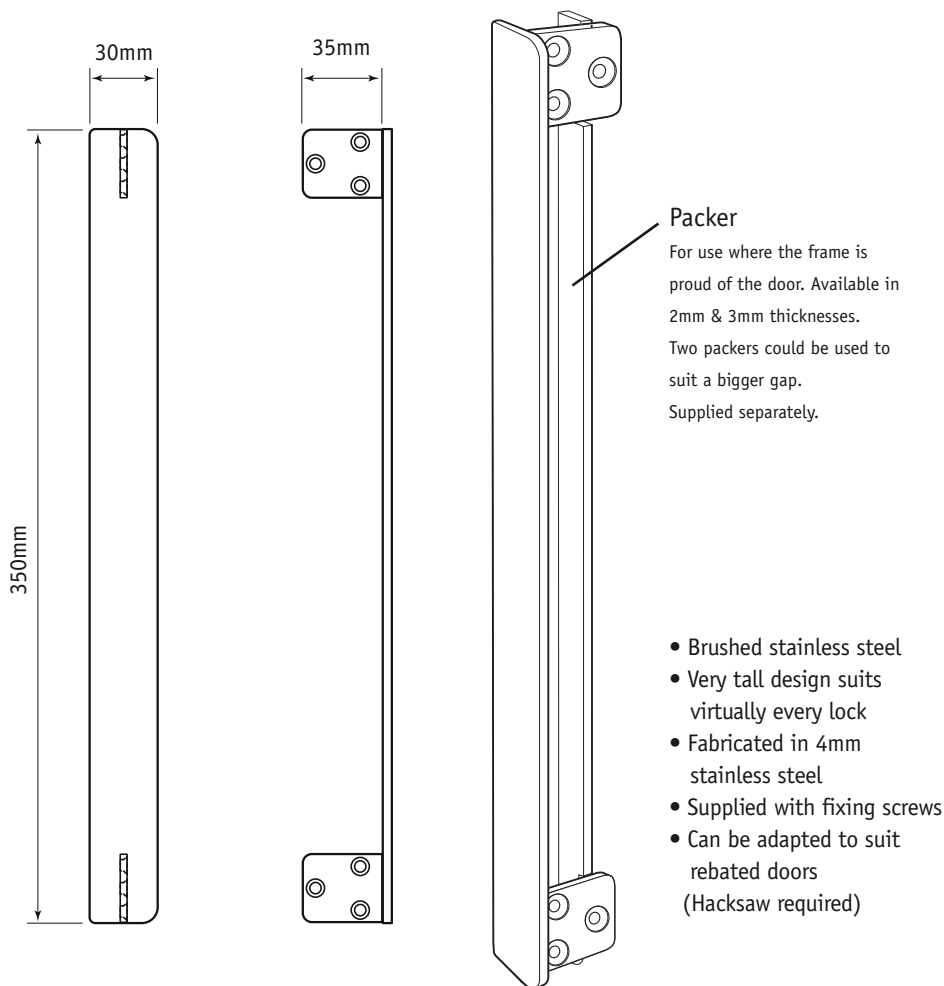

- Double sided 0.8mm thick black foam
- High tack adhesive
- Very stable in use
- A pack of 5 plain double sided adhesive pads
- Pad size: 64mm x 46mm

IMPORTANT

Do not use the pads for temporary fixings.

Edge fix anti-thrust plate (Ref.AT/EF/SS/A)

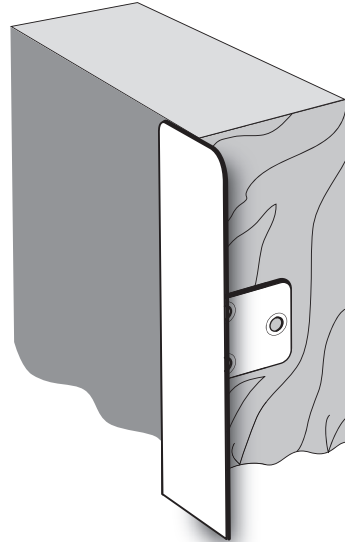

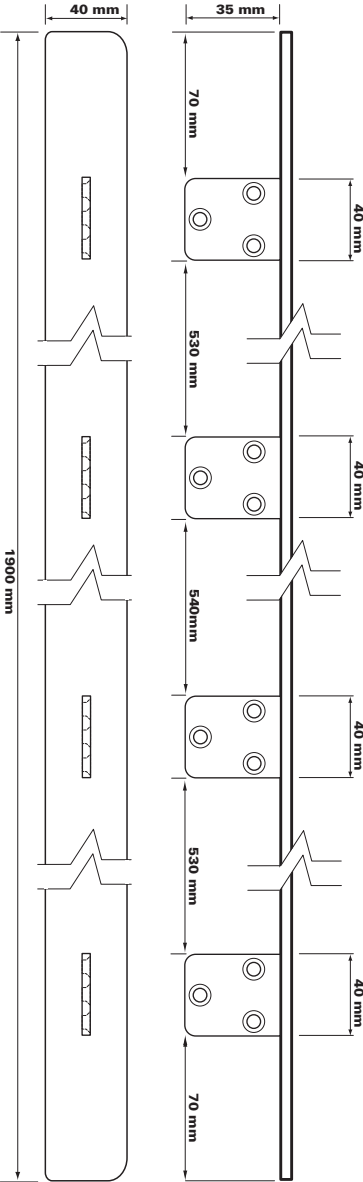

A simple and effective prevention to attacks on outward opening, vulnerable doors

Item	Finish	Ref.
Anti-thrust plate	Satin Stainless	AT/EF/SS/A
2mm Packer		AT/PP2
3mm Packer		AT/PP3

Full height (1900mm)edge fix anti-thrust plate (Ref.FHAT/SS)

A very secure and highly effective way to protect the locks on vulnerable, outward opening doors.

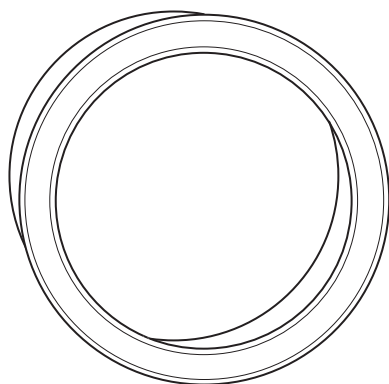

- Made from 4mm thick Brushed Stainless Steel
- Very robust and rigid design
- Incorporates 4 Heavy Duty fixing plates
- Can be adapted to suit rebated doors (hacksaw required)
- Ends can be cut down to reduce the total height of 1900mm by up to 140mm.

Item	Finish	Ref.
Full height Anti-thrust plate	Brushed Stainless Steel	FHAT/SS

Spacer ring

Ideal for fitting screw-in Cylinders to Aluminium doors.

Finish

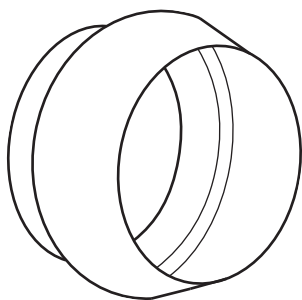

Silver anodised

Ref.

RM2/SA

Security cylinder guard

An anti-tamper cylinder guard which resists attack on screw-in cylinders.

- Bevelled edge to resist wrench attack
- Hardened steel and dull nickel plated
- Spins when attacked
- Fits the following screw-in cylinders

Asec, Assa, Evva, Union, Ruko, and virtually every screw-in cylinder except, Elsa 'NG' and Tallon

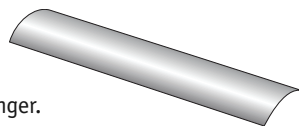

Finish

Dull nickel plated

Ref.

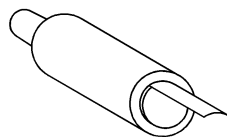

SCG1/DN

A pack of 25 good quality stainless shims ideal for shimming open locks on the bench. Made to the right size and thickness, these shims hold their shape particularly well and tend to last longer.

Shim holder (Ref SH1)

This tool holds curved shims without slipping. Also helps prevent cut fingers. To loosen, simply tap the end on a hard surface. Then, insert the shim and refit to desired length.

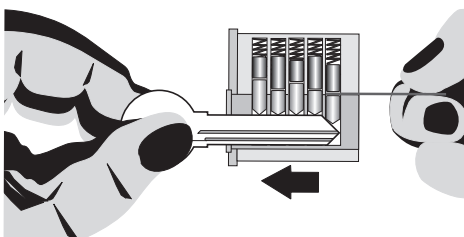

DISASSEMBLING THE CYLINDER

STEP 1

- Insert shim using the key blank.

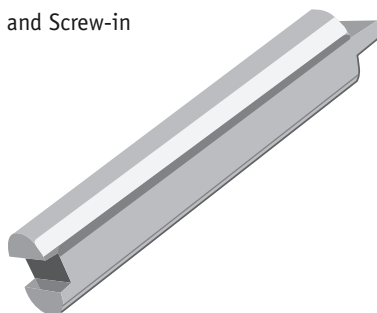

STEP 2

- Remove plug using a plug follower.

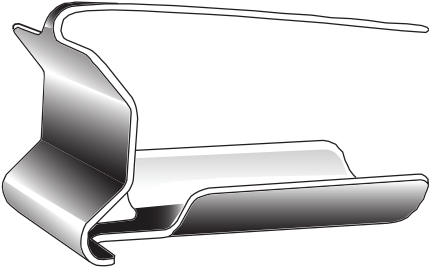

Plug follower (Ref AS/F)

This tool enables pinning and re-pinning of rim cylinders and Screw-in cylinders which use 1/2" (12.7mm) plugs.

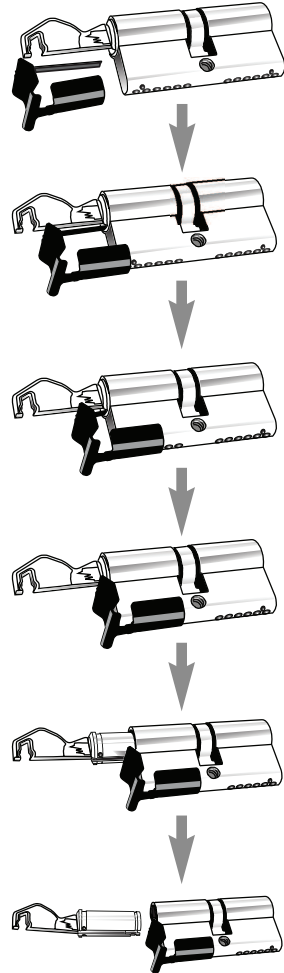

High specification pinning shoes

A range of pinning shoes for re-pinning Euro Profile and 'Union' Oval Cylinders.
Designed to work quickly and easily.

- Plated finishes to prevent rusting
- Heavy duty design to prevent breakage in use
- Illustrated step-by-step instructions
- Bright Nickel and black finishes for quick identification
- Each version sold individually
- Great value

Circlip Removal Tool (Ref CRT2)

This tool enables the quick and easy removal of circlips on Euro Profile and Rim Cylinders.

- Blade made from Hardened steel to last
- Works on Spring Steel, Brass and Mild Steel circlips
- Supplied complete with handle and spare blade
- Further blades available as spares
- Supplied complete with instructions

Item	Ref.
Circlip Removal Tool with fitted blade and one spare	CRT2
Set of three spare blades	CRT2/B

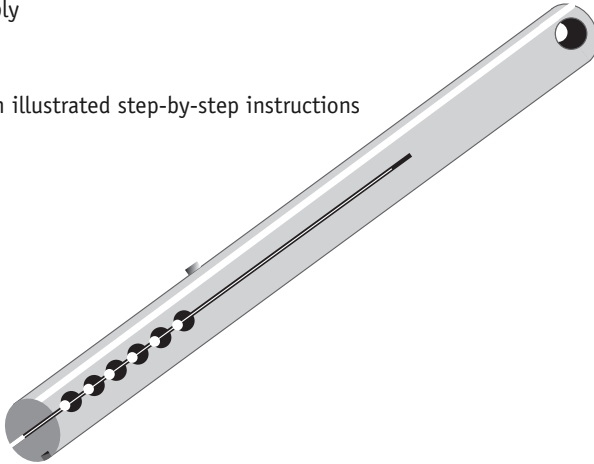

Loading Bars

Enables the quick loading of Euro Profile Cylinder bodies with Springs and Drivers.

NEW

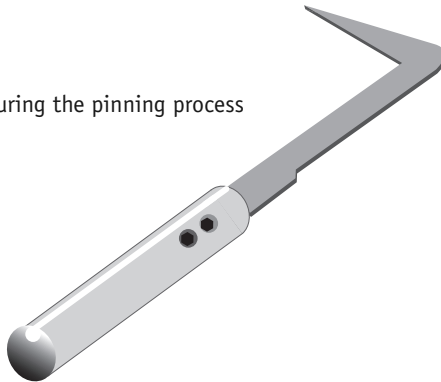

BAR

- Quick assembly
- Great value
- Supplied with illustrated step-by-step instructions

KNIFE

- Depresses springs and drivers during the pinning process

Description	Ref.
EVVA Loading Bar	LB/EV
Ge-Ge & ISEO Loading Bar	LB/GI
Loading Bar Knife only	LB/K

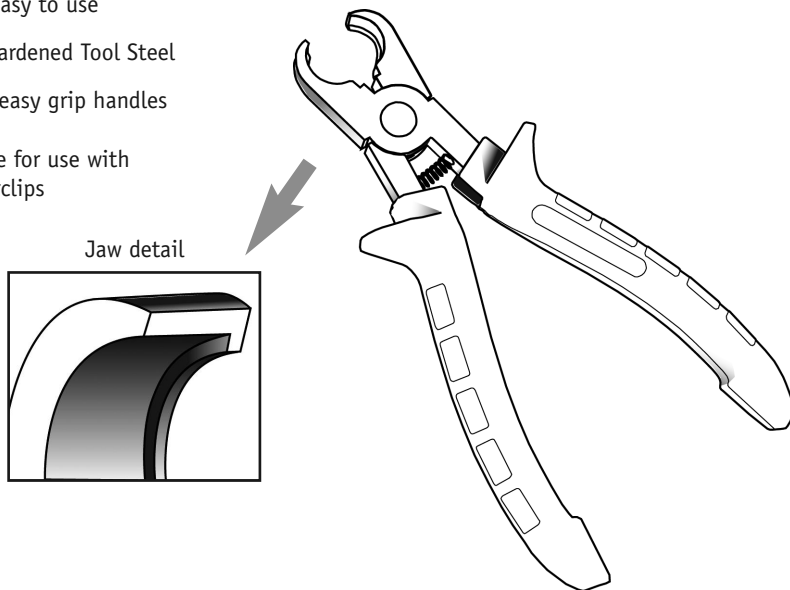

Circlip Pliers (Ref CP1)

21

Specially designed pliers for fitting Brass and Mild Steel circlips to many Euro Profile and Rim Cylinders.

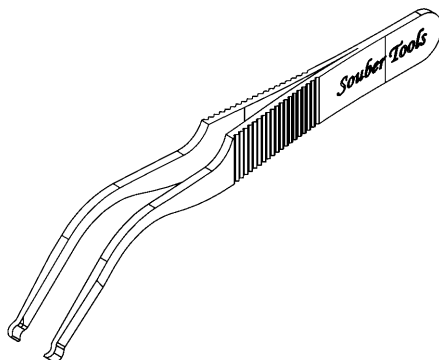

- The perfect tool for fitting Brass or Mild Steel circlips to Euro Profile and Rim Cylinders
- Simple and easy to use
- Made from Hardened Tool Steel
- Comfortable easy grip handles

N.B. Unsuitable for use with spring steel circlips

Angled Pinning Tweezers (Ref TW3)

- Angled for easy use
- Shaped tip to grip s
- High grade Stainles:
- Ribbed for easy fing

Pippin & tapered round files

A Range of popular Files for impressing and other uses for the Locksmith

Pippin File

Round File

To choose the size and type required simply decide on the length
(this is the amount of filing length) and then the type of cut.

- Length:
- 4" (100mm)
 - 6" (150mm)
 - 8" (200mm)

Cut Reference:	Rough Cut (for quick material removal)	Ref. 0
	Second Cut (Medium)	Ref. 2
	Smooth (for preparation just prior to impressing)	Ref. 4

The order reference becomes

PF/Length/Cut	or	RF/Length/Cut
PF/6/4 (Pippin file, 6", smooth)		RF/4/0 (Round file, 4", rough)

Note: The 8" Pippin File is only available in a number 2 cut.

Warding & hand files

23

A range of popular files for the Locksmith.

Warding File

To choose the size and type required simply decide on the **length** (this is the amount of filing length) and then the type of cut.

Length: 4" (100mm)
6" (150mm)
8" (200mm)

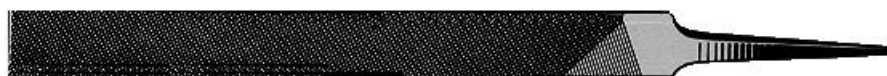

Cut Reference:

Second Cut (Medium)	Ref. SC
Smooth	Ref. SM

The order reference becomes

eg. WF/Length/Cut
WF/6/SM (Warding file, 6", Smooth)

Hand File

The order reference is

HF/10/BC (Hand file, 10", Rough)

Note: the Hand File is only available as 10" Bastard Cut.

Wooden file handles

3" File Handle (for 4" and 5" Files)

Ref. FH0

4" File Handle (for 6" Files)

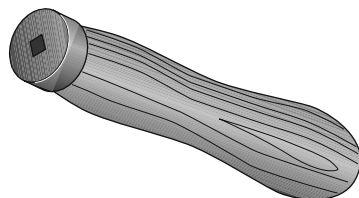

Ref. FH1

5" File Handle (for 8" Files)

Ref. FH2

6" File Handle (for 10" Files)

Ref. FH3

Key file set (Ref KFS)

Six different shapes of robust, 4" Files that are common in the Locksmith Trade. For use when a small, precision pattern file is required. Fitted with durable plastic handles.

Shapes include:

Half Round 

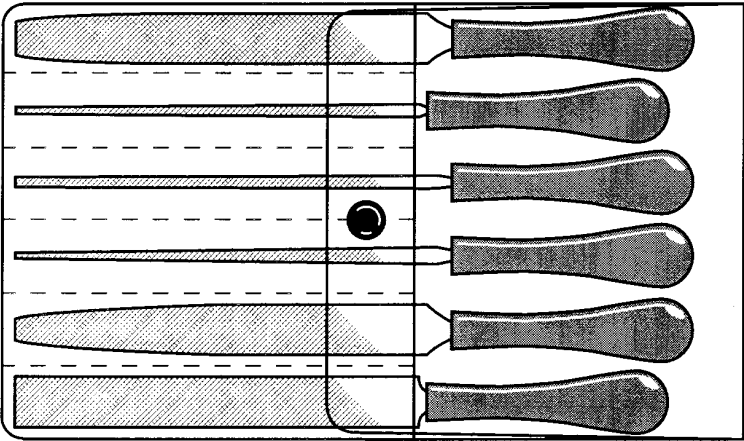

Square 

Round 

Three Square 

Warding 

Equalling/Hand 

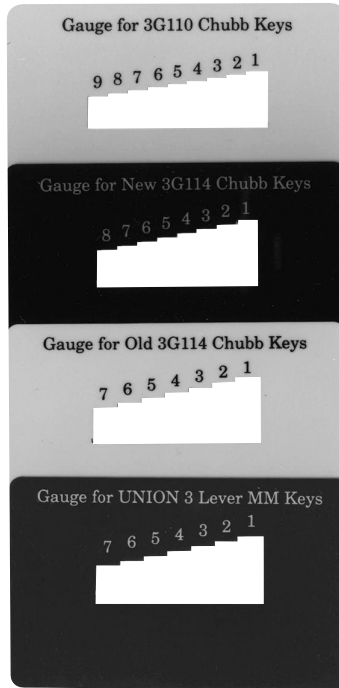

Key reader kit (Ref KR1)

25

For Chubb & Union MM Locks

Easy to use set of readers for identifying Chubb Key Heights.

A set of 4 key reader cards complete with Union MM Series coding and decoding chart.

- 1 Key Reader for Chubb 3G110 Keys
- 1 Key Reader for Chubb 3G114 Keys (Old)
- 1 Key Reader for Chubb 3G114 Keys (New)
- 1 Key Reader for Union 3 Lever Locks.
- Quickly make locks to pass
- Also covers the 3G115, 3K70, 3M50 and the 3R35 series.

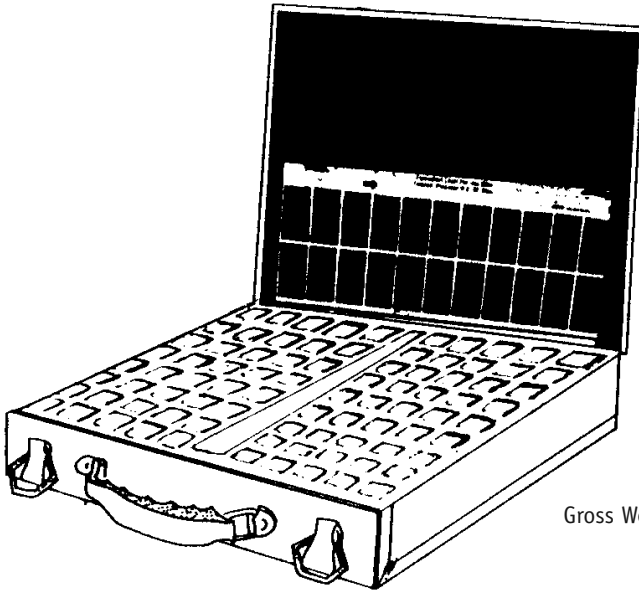

User Quotes:

"It's made me hundreds of pounds" – N. Paladino of Epsom

"A tremendous little gadget" – M. McGrath of Keymakers (London) Ltd.

Coloured pinning kit (Ref OEM19)

A universal kit compatible with most manufacturers

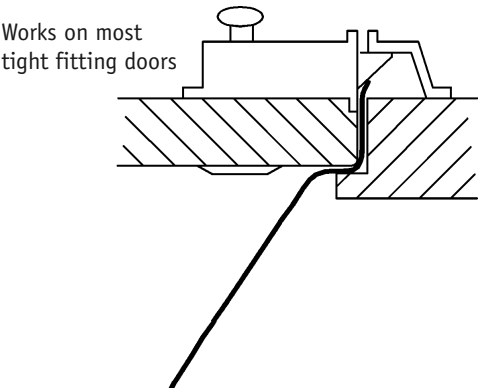

Gross Weight: 7kg

- 100 of each size of pin
- Pins in 5 thou (0.005") increments
- Compartments for tweezers, followers and springs
- Steel carrying case with moulded plastic insert tray
- Numbered compartments
- Spare pins also sold separately (order by size and type)

Super Mica

In the masters hands, this 'Magic Material' will open virtually any sprung live latchbolt. Lasts longer and performs better than anything you've ever seen before.

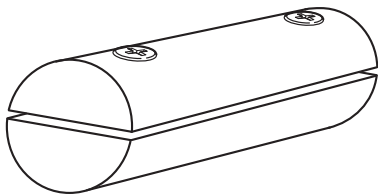

- Also works on window catches
- 2 different thicknesses
- 5 pieces to a pack

Style	Ref.
Includes 3 thin and 2 thick pieces	LSM2
Includes 5 thick pieces	LSM2/050
Includes 5 thin pieces	LSM2/035

Mica handles

A pair of Half Handles for use with Mica

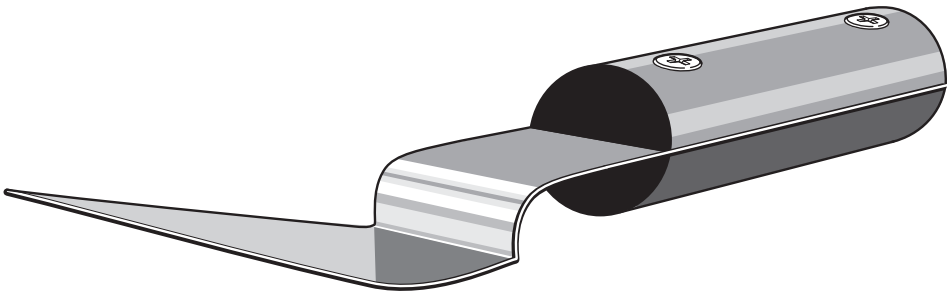

- Easy grip
- Reduces risk of injury when using Mica
- Works with standard paper hole punch
- 2 colours to aid material identification

Style	Ref.
Pair of black handles	HH/B
Pair of white handles	HH/W

UPVC latch tool (Type 1)

A tool designed to open latched/closed UPVC doors.

This tool will enable the user to spring the latch back. It works on both inward and outward opening doors. An alternative to Mica where the strike plate prevents clear access.

- Made from hardened spring steel
- Easy grip handle
- Suits inward and outward opening doors
- Comes complete with illustrated instructions

Style	Ref.
For right hung doors	ULT1
For left hung doors (reverse)	ULT1/R

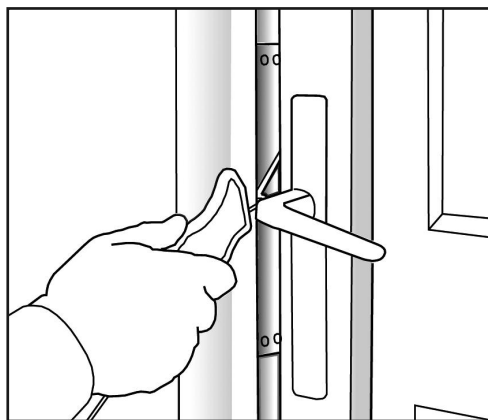

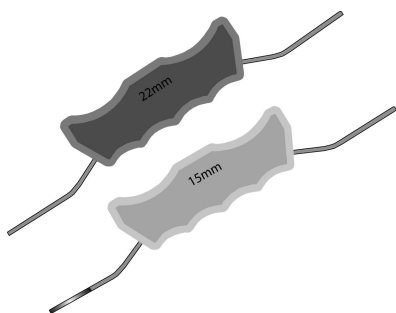

UPVC latch tool (Type 2) Ref ULT2

29

Tools designed to open latched/closed UPVC doors.
Made to tight tolerances for maximum effect.

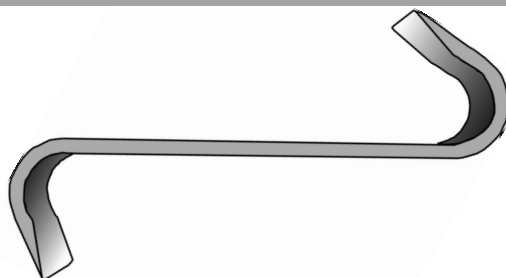

- Enables the user to spring a live latch back
- Ideal for UPVC doors where strike plate prevents clear access
- Makes UPVC door opening a breeze!

See the video of the product at www.soubertools.com/ult2.html

- Latch tools supplied as a pair to suit different size door frames
- Easy grip double ended tools
- Suitable for left and right hung doors
- Perfect for inward and outward opening doors
- Supplied with illustrated step-by-step instructions
- Double ended lever ULT/L (sold separately) enables easy tool entry

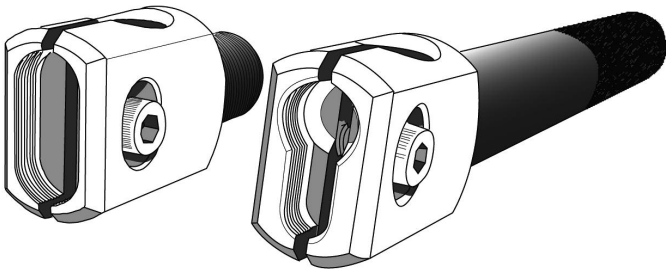

Double ended lever Ref ULT/L

Adjustable Cylinder Snapper Kit

A professional tool developed to break ‘Euro’ and UK ‘Oval’ lock cylinders with ease. Effective and efficient on cylinders with as little as 3-4mm protrusion.

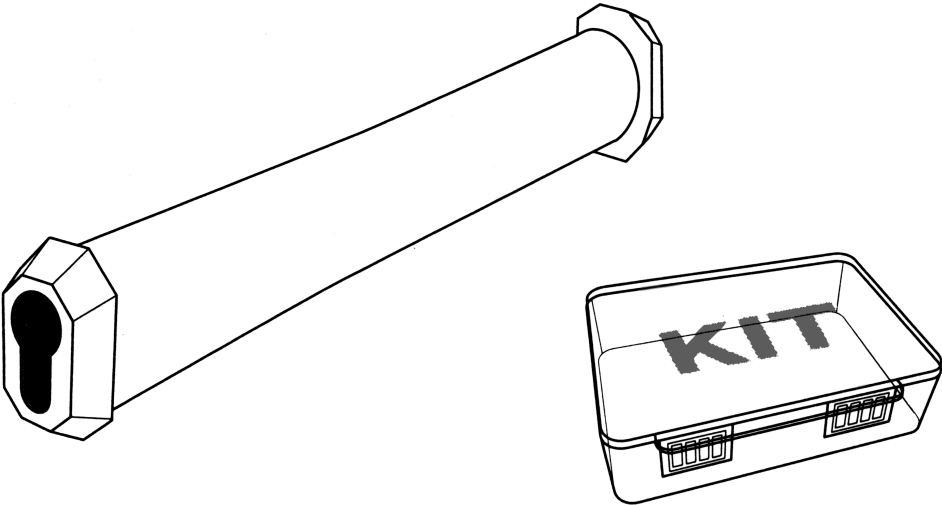

- Manufactured using hardened high grade tool steel for rugged durability
- Quick and easy ‘On-Off’ action
- Hardened serrated vice jaws for secure grip
- Two kit options - Euro only and Euro/Oval complete
- Both kits include a useful Universal multi purpose key
- Kit supplied in a smart tough moulded storage case

Ref.	Description
ACS1	Dual Heavy Duty Euro & Oval kit
ACS2	As above but Euro Only Kit
ACS/O	Spare Oval Head
ACS/E	Spare Euro Head

Cylinder snapper

Hardened cylinder snappers for Euro-profile, UK Oval cylinders.
Made to tight tolerances for maximum effect.

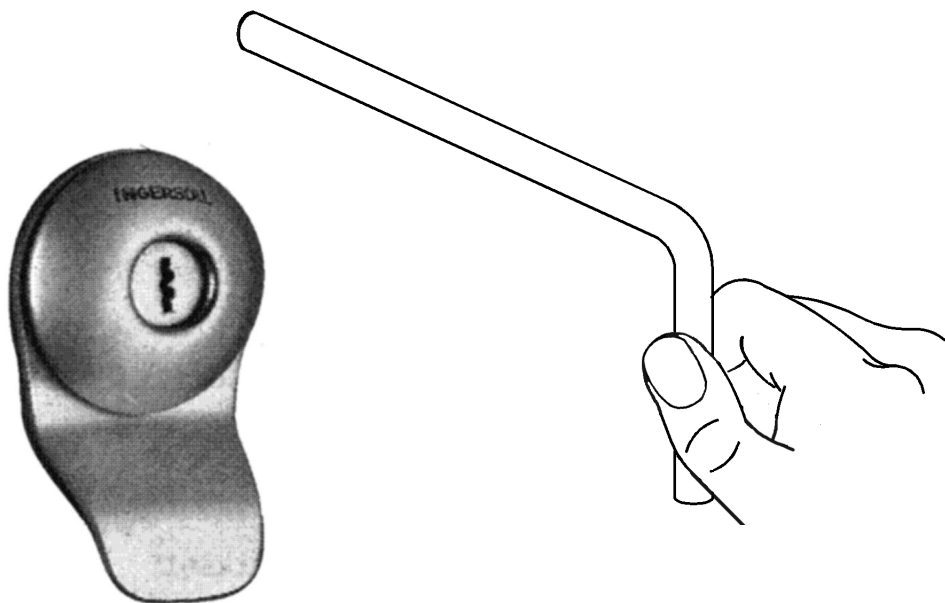

- Suits both Euro & U.K. oval cylinders
- Cylinder needs to project a few mm to work
- Tight manufacturing tolerances ensures good fit
- Zinc plated and then painted
- Optional kit for quick removal of broken pieces and bolt retraction

Description	Ref.
Double ended cylinder snapper <i>UK (Euro & Union oval)</i>	CS1
Single ended cylinder snapper <i>(Euro only)</i>	CS2
Broken piece removal kit <i>(inc. magnetic removal tool, long nose pliers & bolt withdrawal tools)</i>	CS1/K
Broken piece removal kit <i>(inc. magnetic removal tool, long nose pliers & bolt withdrawal tool)</i>	CS2/K
Euro Bolt Thrower and withdrawal tool <i>(inc. magnet and cylinder measuring marks)</i>	CS1/ET

Ingersoll SC71 lock opener (Ref ING1)

A useful and well proven means of easily opening the Ingersoll SC71 type locks under normal circumstances.

- Very little training needed
- Takes only moments to succeed

By drilling a small hole (which can be easily and inconspicuously plugged after opening), this tool will enable the locksmith to quickly operate the hand lever. Supplied complete with comprehensive instructions on method of use.

Please note that this tool cannot work if the lock has been further deadlocked by external use of the key.

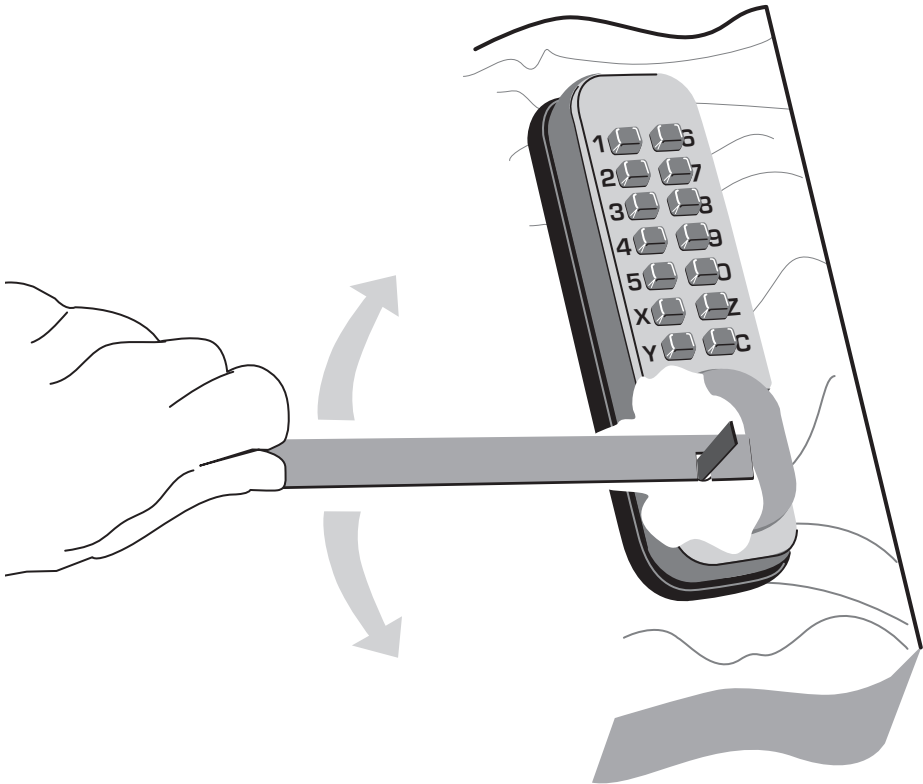

Digital Lock tool (Ref DLT1)

33

Useful bypass tool to open the 14 Button style Digital Locks. Simple and effective.

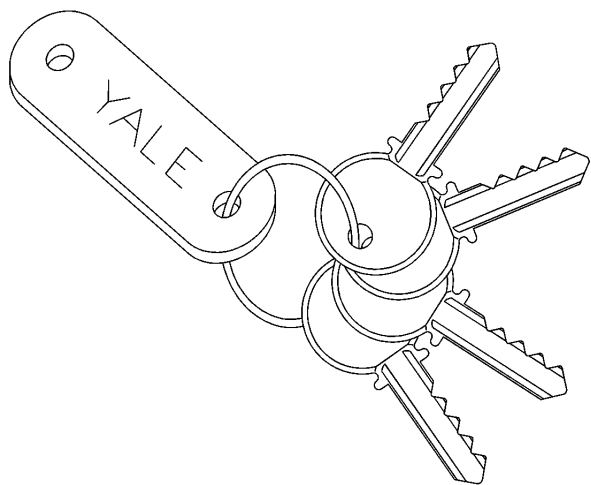

NEW

- Quick method
- Supplied with illustrated step-by-step instructions
- Great value

Special keys (bump keys)

A set of 3 or 4 keys, specially developed to open a wide range of popular locks.

- Very Quick and Easy to Use
- Supplied Complete with Instructions
- Proven in Use
- Up to 95% success rate
- Uses a simple lightweight mallet

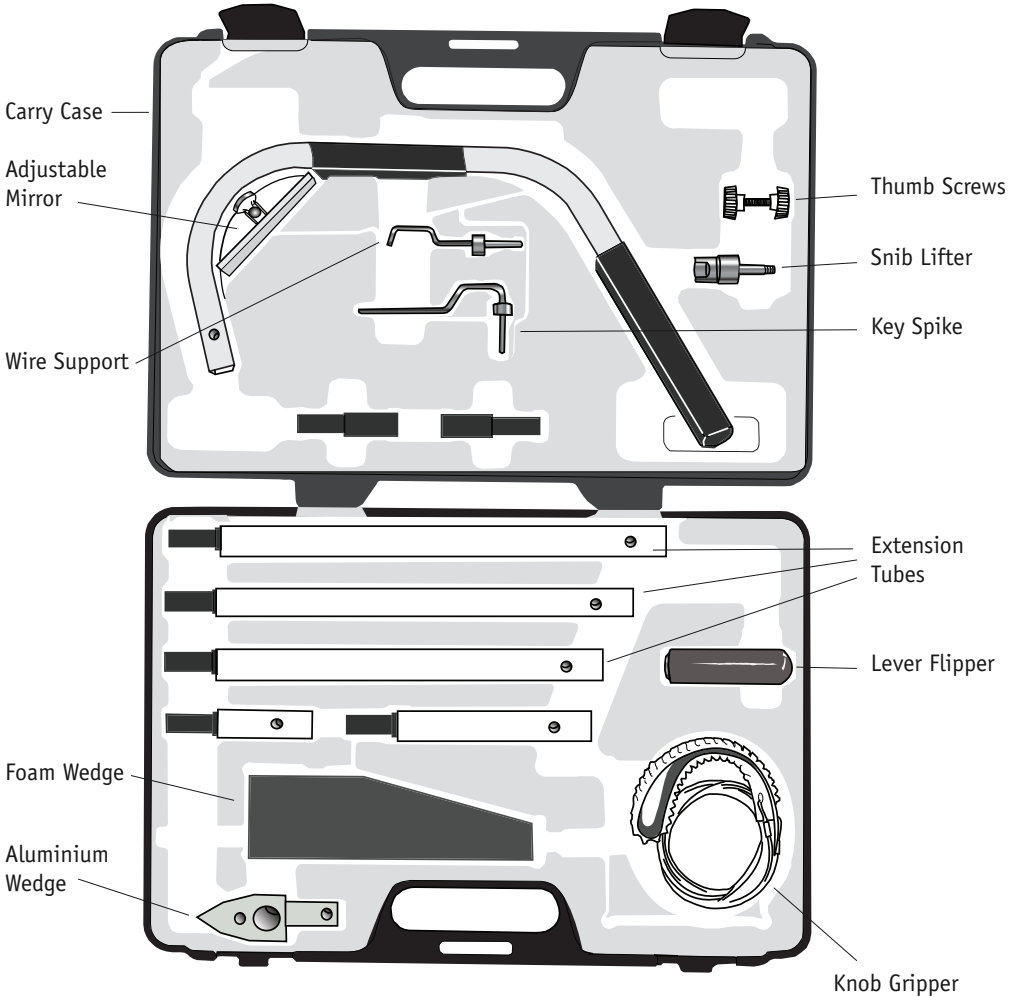

Description	Ref.
ERA	SK/ER
GE-GE	SK/GE
LEGGE	SK/LE
UNION	SK/UN
VIRO	SK/VI
YALE	SK/YA

Letter box tool (Ref LBT1)

35

This tool opens locks via the letterbox. The Letter Box Tool is fully extendable, and can be made to reach nearly 4 feet to manipulate locks in a variety of situations.

It grips round knobs and handles. It lifts dropped snibs as well as pulls back certain door chains and surface bolts. Comes complete with its own carry case and built-in mirror.

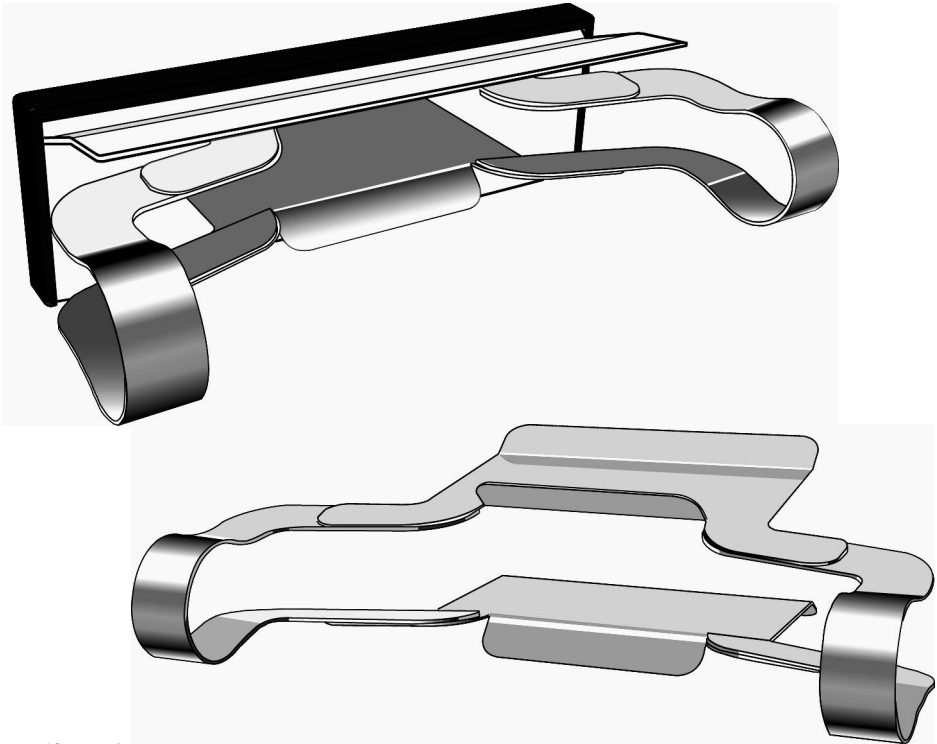

Now
including

SPIKE for extracting keys left on the inside of locked doors
NEW IMPROVED KNOB GRIPPER
LEVER FLIPPER
LENGTH COMBINATION CHART (not shown)

Letter box brush tool (LBT/BT)

This tool is designed for use on letterboxes with 'Brush' type draught excluders. It moves the brushes and flaps out of the way to create a perfectly clear view.

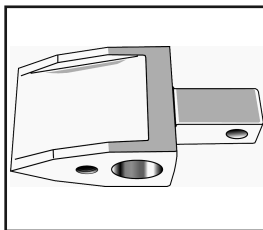

- Lifts up both the outside and inside flaps
- Perfect 'Springing Action'
- Quick and easy to insert
- Creates a clear 6 inch (150mm) view
- Works on virtually all UPVC Letterboxes

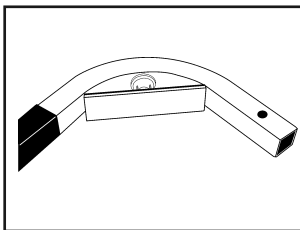

Letter box tool spares

Individual, replacement, parts for our Letter Box Tool.

Letter box mirror tool

An easy to use and fully adjustable letter box mirror.

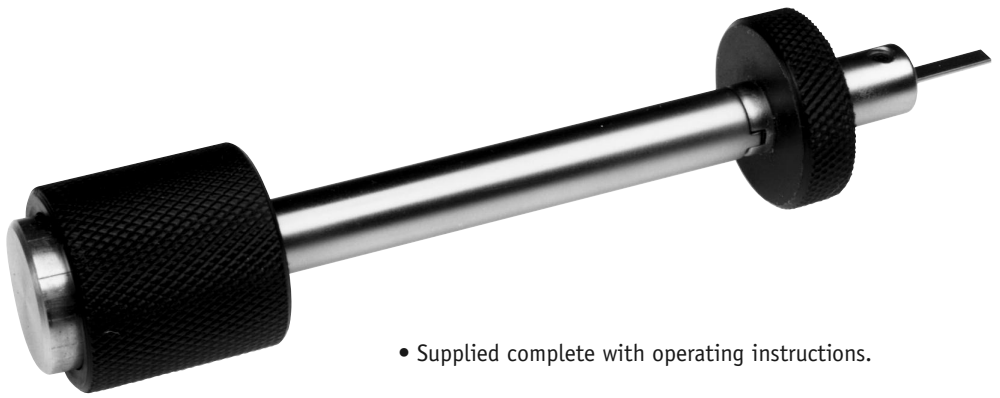

- 100mm x 100mm (4" x 4")
- Mirror made from Perspex
- Protected back of mirror prevents scratches
- Full 360° rotational movement
- Approximately 70° movement from horizontal
- Handle fits inside Souber Foam wedge

Description	Order Ref.
Mirror assembly complete with foam wedge	LBT/MAFW
Mirror assembly only	LBT/MA

Plug spinner

So, you've picked the cylinder the wrong way. Now what do you do?
Use the Plug spinner to rotate the plug super fast in the right direction without relocking.

Simply pre-set the nose, insert the blade and press the button. Hey Presto!

- Supplied complete with operating instructions.

Description	Order Ref.
Standard Plug Spinner (as shown)	PS2
Heavy Duty Plug Spinner	HD/PS2

Key turner (Ref KT1)

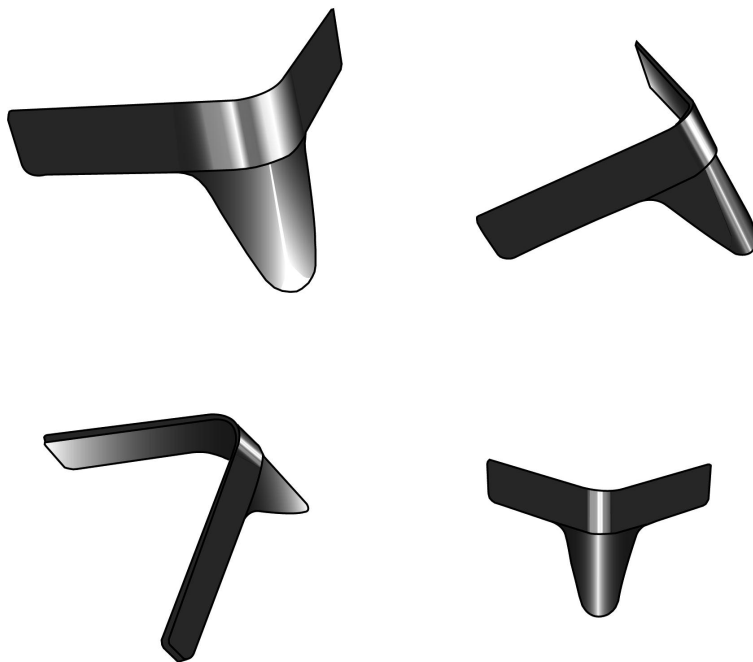

SECURITY ITEM

A device to simply and quickly turn keys left on the inside of locked doors.
Designed to work on most 2 and 3 lever locks this tool will work from the outside to quickly turn keys left in locks. With a little practice, Locksmiths should be able to open some locks with this tool in under 10 seconds

MONEY BACK GUARANTEE if not completely satisfied.

Padlock shim pack (Ref PAD20)

An assortment of 20 padlock shims designed to quickly and effectively open many of the snap-shut type economy padlocks on the market.

- Simple to use
- 4 Different sizes
- Works on both Single and Double latched padlocks
- Supplied complete with Instructions

User Quotes:

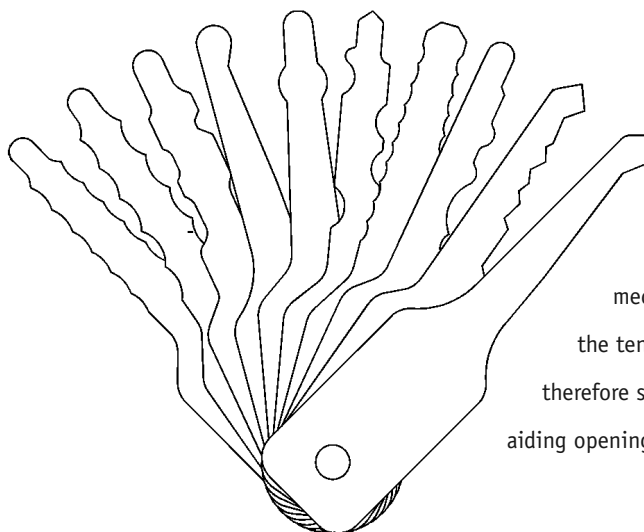

"A Must for one's opening kit" – Terry Wise, Thornton Heath.

"The best product so far" – Gary Daniell, Elite Locks, Redhill.

Car jiggers (Ref CKJ1)

41

A set of 10 jigger keys to help open all kinds of cars as well as numerous other locking devices.

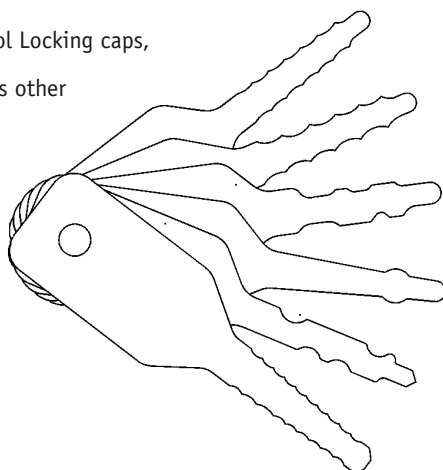

Works on both pin tumbler and wafer mechanisms. Combines the tension tool and pick, therefore speeding up and aiding opening techniques.

Mini jiggers (Ref MJ1)

A set of 6 smaller jigger keys

For opening some car locks as well as Petrol Locking caps, Lockers, Cam Locks, Padlocks and numerous other locking devices.

Works on both pin tumbler and wafer mechanisms. Combines the tension tool and pick, therefore speeding up and aiding opening techniques.

See also Micro Jiggers (page 51)

Broken key extractor system (Ref BKES)

A kit for cleverly extracting broken keys from both wafer and pin tumbler door locks.

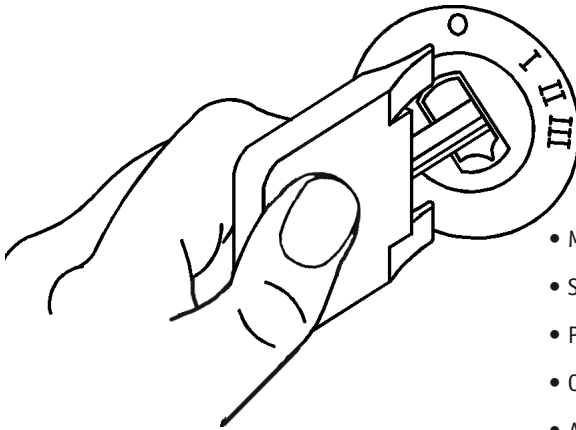

- Simple to use
- Spreads wafers to allow key removal
- Spiral wire pulls out broken key part
- Replacement wires available

Description	Ref.
Complete kit (3 items)	BKES
Replacement spiral wire with handle	BKES/WH
Forceps only	BKES/F
Wafer spreader only	BKES/WS

Tibbe pick (Ref TIB1 - clockwise)

43

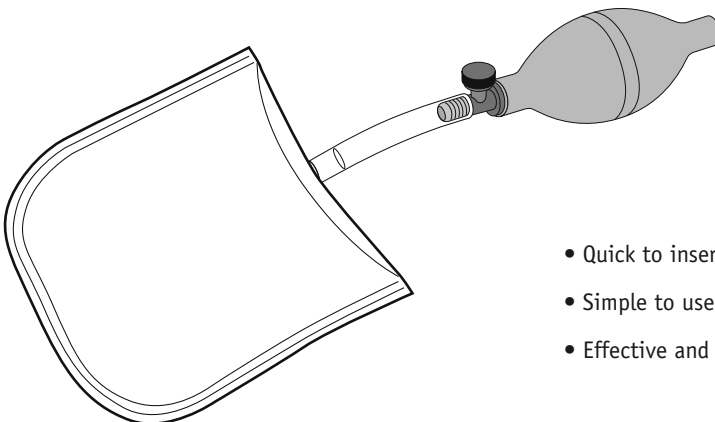

Picks open and enables decoding of Ford Tibbe Locks.

- Made from Hard Steel (not a soft key)
- Simple to use
- Proven in use
- Complete with Instructions
- Anticlockwise available (ref TIB2)

Air wedge (Ref A0 65)

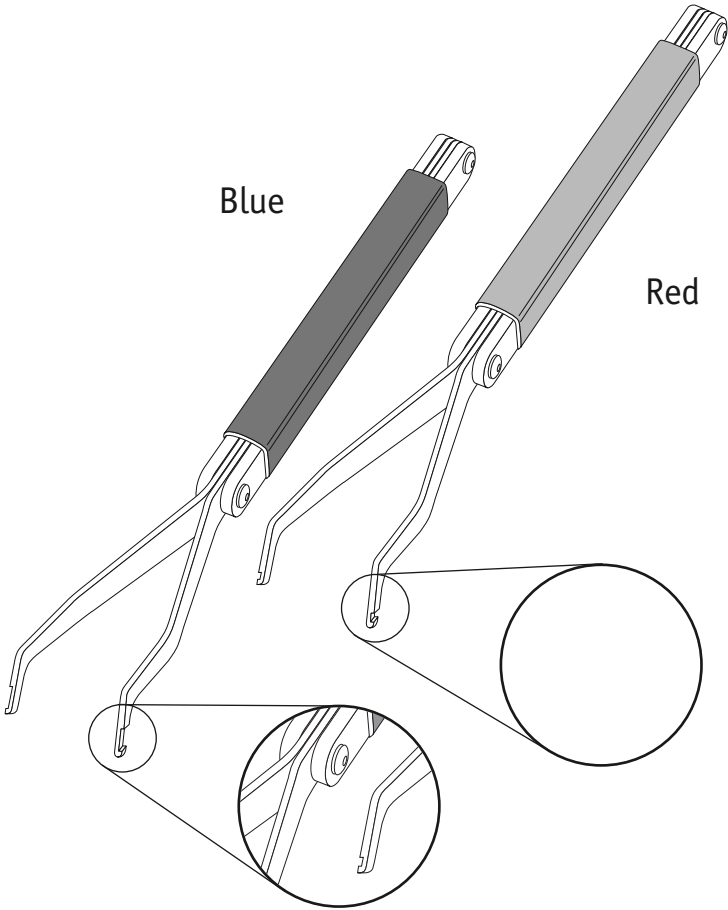

A simple device to aid car opening. Insert and pump up to aid insertion of opening tool

- Quick to insert
- Simple to use
- Effective and quick to inflate & deflate

Heavy duty tension tools

Two heavy duty tension tools for picking high security car locks.
Ideal for using with overlifting picks.

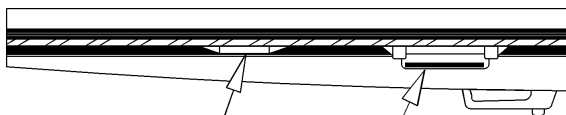

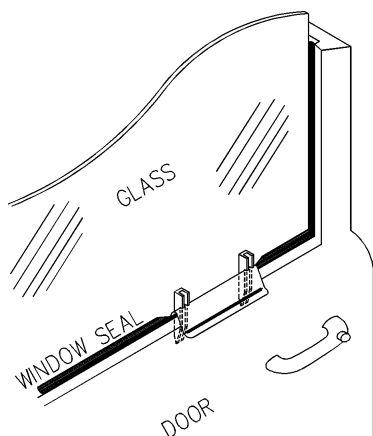

- Colour coded for quick identification
- Designed to suit both standard or deep cap locks
- Heavy duty design
- Riveted construction made to last a lifetime
- Made from heavy duty spring steel

Description	Order Ref.
Heavy duty tension tool (Std-Red)	HD/TT1
Heavy duty tension tool (Deep-Blue)	HD/TT2

Clear view car door system (Ref A0 63)

45

A simple door viewing system to give a large viewing aperture into car doors.

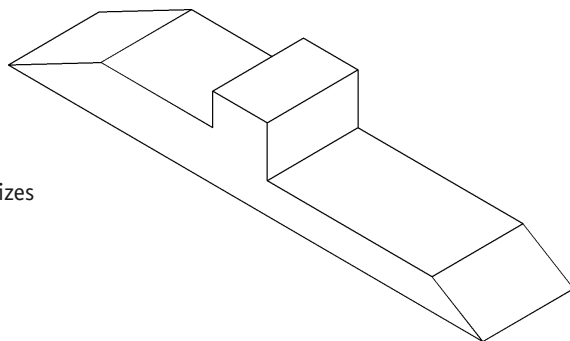

Regular wedge Clear view system

- Gives a 4" by 3/8" clear view aperture
- Simple to use
- Helps to speed up opening times.

Double sided wedge (Ref A0 60)

An economical door wedge for easy car door opening.

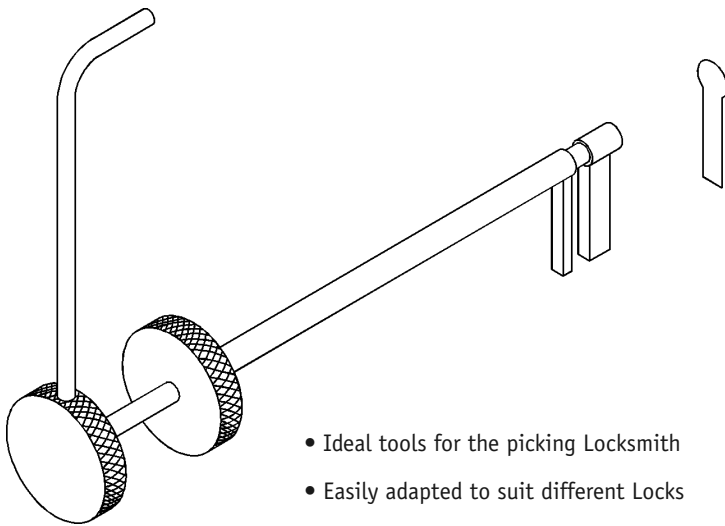

- Hard Durable Plastic
- Two ends different sizes

2 in 1 mortice picks

A range of 6 Picks which will open different 3, 4, & 5 Lever Locks without Barrel & Curtain.

These Picks are the result of much research and use materials normally found in the Toolmaking world.

- Ideal tools for the picking Locksmith
- Easily adapted to suit different Locks
- Instructions which explain how they work
- Full instructions on adaption and use
- Available in 6 & 7 Gauge sizes

Gauge	Hand	Ref.
6	Left	6G/MP/LH
6	Right	6G/MP/RH
6	Universal	6G/MP/U
7	Left	7G/MP/LH
7	Right	7G/MP/RH
7	Universal	7G/MP/U

'Hand' is determined by direction of Bolt

Over-lifting picks

A range of 4 Picks which will open different 3, 4, & 5 Lever Locks without Barrel & Curtain.

These Picks are the result of much research and use materials normally found in the Toolmaking world. For use on the following locks:

A & S 5 lever

Enfield 5 lever

Willenhall 5 lever

Bulldog Brand 5 lever

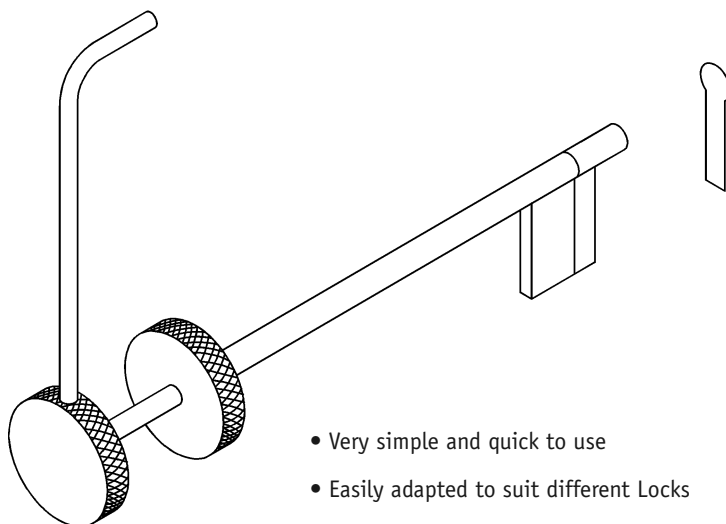

Guardian 5 lever

Union 4 lever

B & B 5 lever

Henderson 5 lever

and many others

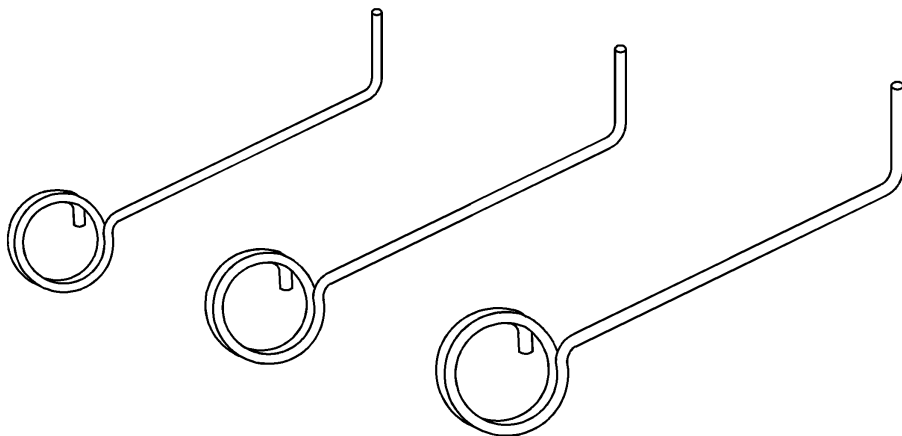

- Very simple and quick to use
- Easily adapted to suit different Locks
- Instructions which explain why they work
- Full instructions on adaption and use
- Available in 6 & 7 Gauge sizes

Gauge	Hand	Ref.
6	Left	6G/OL/LH
6	Right	6G/OL/RH
7	Left	7G/OL/LH
7	Right	7G/OL/RH

'Hand' is determined by direction of Bolt

Lever lock picks (Ref LP1)

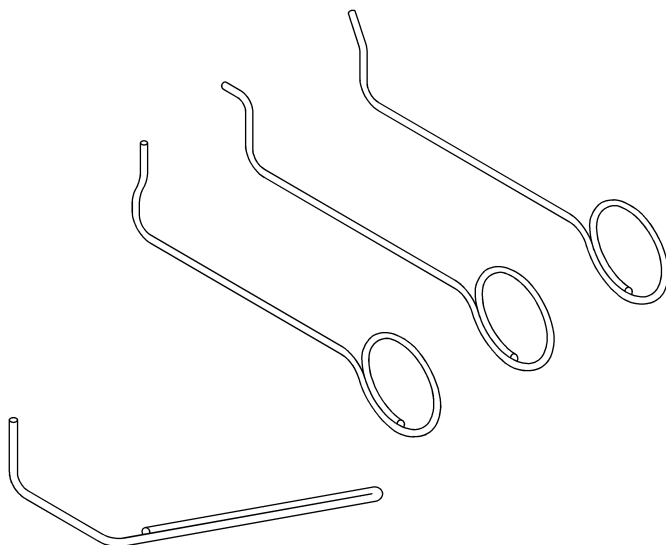

A set of 12 picks manufactured from the best quality spring steel. The set comprises 4 of each of 3 popular gauges and can be adjusted to suit most lever locks.

Lever lock picks (Ref LP2)

A set of 20 wire picks and tension tools designed for picking various popular lever locks.

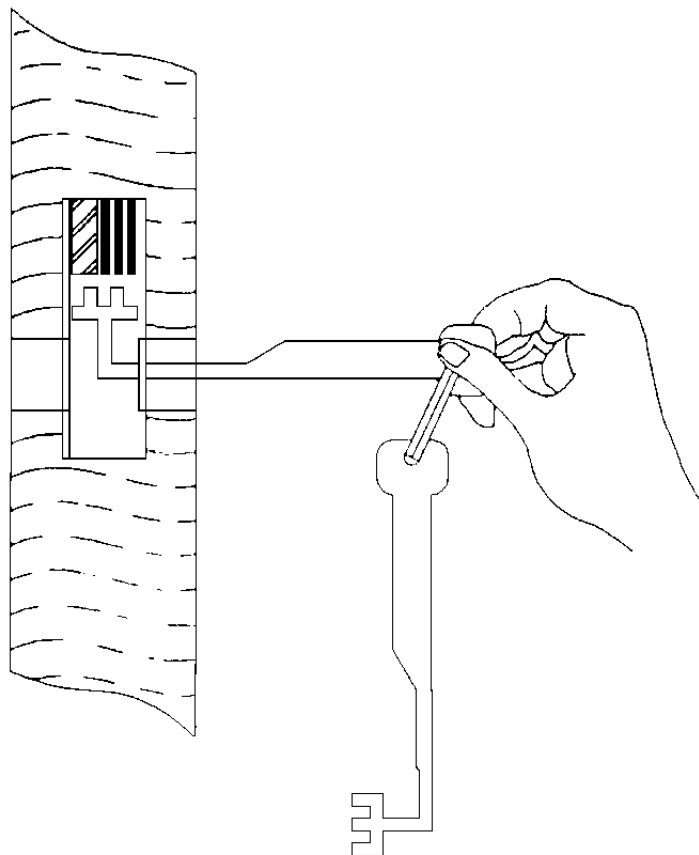

- Covers many 2 and 3 lever locks.
- Suitable for plain and warded locks.
- Left and Right hand types included.

2 & 3 lever picksets (Ref 2LPS & 3LPS)

49

These Picksets will open the majority of the 2 and 3 lever locks in use today.
E.g. YALE, UNION, LEGGE, GIBBONS, FLEET, CENTURY etc.

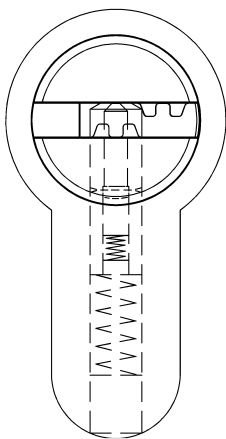

- Hardened and tempered for strength
- Proven design
- Simple to use
- Thin enough to enter bullet warded locks
- Supplied complete with instructions
- 7 picks in the 2 lever set
- 15 picks in the 3 lever set

The mul-t-lock pick set (Ref MTL1)

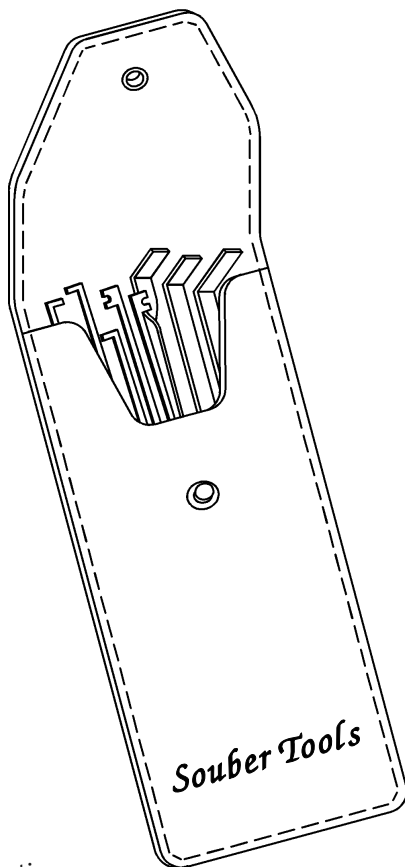

A Set of 5 Picks and 4 Tension Tools complete with Leather Wallet.

Specially designed to work on the standard popular Right Hand sections.

This pick set uses a simple step-by-step technique fully described in the instructions included.

Typical RH cylinder section

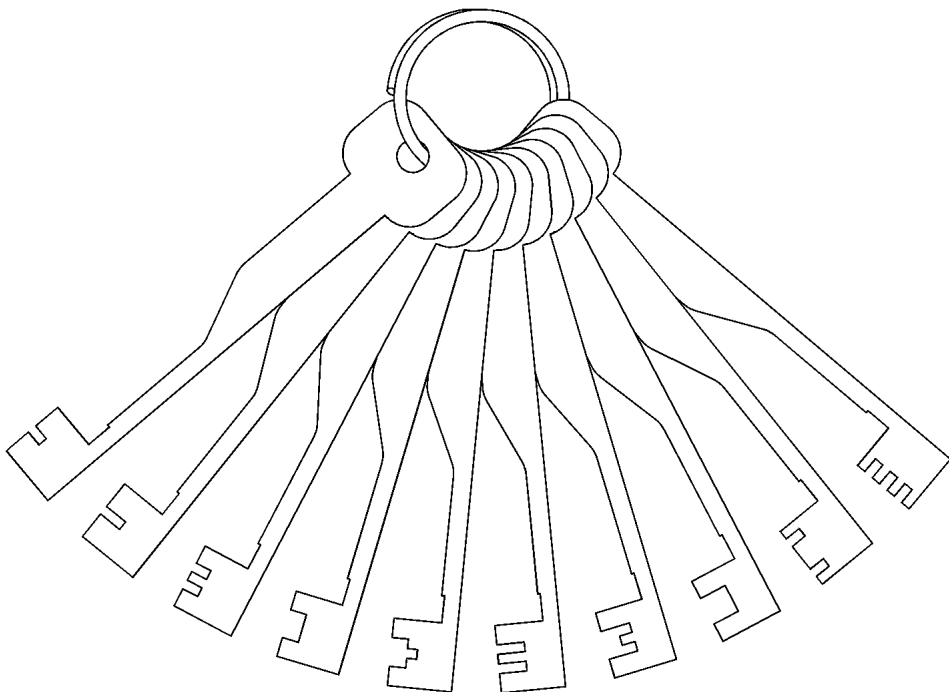

- Specially Designed Pick Shape
- Supplied complete with Illustrated Instructions
- Real Leather Wallet included
- Simple to use

The 'Standard' pick set (Ref SPS1)

51

At last, an opening tool for locks with bolt throwers which make the job easy.
